

KABEER A

Full Stack MERN Developer | Software Developer Intern

Bengaluru, India | kabeerartwork7@gmail.com | +91 88611 97933 | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Computer Science Engineering student specializing in Full Stack MERN development, with hands-on experience building web applications using React.js, Node.js, Express.js, and MongoDB. Familiar with Java, OOP, SQL, DBMS, DSA (Basics), REST APIs, JWT authentication, and responsive UI development. Experienced with cloud deployment and services including Vercel, Render, MongoDB Atlas, and Cloudinary. Seeking Software Developer / Full Stack Developer internship opportunities.

TECHNICAL SKILLS

Languages: Java, JavaScript (ES6+), SQL

Frontend: React.js, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, REST APIs, JWT Authentication

Database: MongoDB, MongoDB Atlas, MySQL

Libraries/Tools: Axios, Socket.io, Git, GitHub, Postman, VS Code

Cloud/Deployment: Vercel, Render, Cloudinary

Core Concepts: OOP, DBMS, DSA (Basics), MVC Architecture, API Integration, Responsive Web Design

PROJECTS

Scan2Print – QR-Based Digital Store Platform [GitHub](#) | [Live Demo](#)

React.js, Node.js, Express.js, MongoDB, JWT, Cloudinary, Tailwind CSS

- Built a QR-based digital platform that enables customers to access print-store services and upload documents through store-specific QR codes.
- Implemented secure customer file uploads using Cloudinary for cloud storage and MongoDB for file metadata management.
- Developed store-owner functionality to view, download, and delete customer-uploaded documents.
- Integrated JWT-based authentication and REST APIs, with the frontend deployed on Vercel and backend deployed on Render using MongoDB Atlas.

SkillSwap – Community Skill Barter Platform [GitHub](#) | [Live Demo](#)

React.js, Node.js, Express.js, MongoDB, Socket.io, Redux Toolkit

- Developed a skill-exchange platform that enables users to discover relevant skills and connect based on mutual learning interests.
- Implemented real-time communication using Socket.io for interactive user-to-user chat.
- Built skill exchange request and session scheduling workflows to support structured peer interactions.
- Integrated Redux Toolkit for centralized state management across matching, requests, chat, and session-related features.

Outreach Pipeline – Automated Sales Outreach System [GitHub](#) | [Live Demo](#)

Node.js, Express.js, Ocean.ai, Prospeo, Brevo

- Developed an automated sales outreach pipeline for discovering relevant companies and identifying potential decision-makers.
- Integrated Ocean.ai and Prospeo APIs to support company and contact discovery based on defined criteria.
- Implemented Brevo integration for personalized email generation and outbound communication.
- Added a manual safety checkpoint before email dispatch to provide controlled review of generated outreach.

PROJECT EXPERIENCE

Full Stack MERN Developer — Personal Projects 2025 – Present

- Designed and implemented RESTful APIs using Node.js and Express.js with MongoDB/Mongoose for data persistence.
- Implemented JWT-based authentication and authorization patterns for secure application access.
- Developed responsive React.js interfaces using Tailwind CSS with reusable components and structured state management.
- Used Git/GitHub for version control and integrated services such as Cloudinary, Vercel, Render, and MongoDB Atlas across projects.

ACHIEVEMENTS & CERTIFICATIONS

- Software Engineering Essentials – IBM
- Odoo Hackathon – Participated in Web Application Development Hackathon.
- Web Weave Full Stack Development Challenge – Participated and demonstrated full-stack MERN development skills.
- Active GitHub contributor with hands-on experience in full-stack web application development.

EDUCATION

B.Tech – Computer Science Engineering 2023 – 2027

CMR University, Bengaluru | CGPA: 8.89 (Final Year)

ADDITIONAL INFORMATION

Passionate about scalable SaaS and full-stack development | Strong interest in real-world problem solving | Continuously learning modern web technologies | Open to Software Developer and Full Stack Developer internship opportunities.
