# KABEER A

Bengaluru, India | kabeeratwork7@gmail.com | +91 8861197933 | github.com/Kabeer-developer | Portfolio

## PROFESSIONAL SUMMARY

Pre-final year B.Tech Computer Science student with strong skills in full-stack MERN development. Experienced in building and deploying real-world web applications including SaaS platforms, barter systems, and e-commerce solutions. Passionate about developing scalable applications that solve real community problems. Currently seeking a full-stack developer internship to apply and enhance practical development skills.

## TECHNICAL SKILLS

**Frontend:** React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Redux Toolkit

**Backend:** Node.js, Express.js, REST API Development, JWT Authentication

**Database:** MongoDB, Mongoose

**Real-time:** Socket.io

**Cloud & Deployment:** Render, Vercel, Netlify, MongoDB Atlas, Cloudinary

**Tools:** Git, GitHub, Postman, VS Code

**Concepts:** MVC Architecture, RESTful APIs, Role-Based Access Control, Authentication & Authorization, CRUD Operations

## PROJECTS

### Scan2Print – QR-Based Digital Store Platform (MERN SaaS)

*Tech: React.js, Node.js, Express.js, MongoDB, JWT, Cloudinary, Tailwind CSS*

*github.com/Kabeer-developer/Scan_2_Print | scan2print-frontend.vercel.app*

- Built a SaaS platform enabling local print shops to create digital stores and receive orders online using QR codes.
- Implemented secure authentication and role-based access for admin and store owners.
- Developed product and order management system with image uploads via Cloudinary.
- Generated unique store URLs and QR codes for offline-to-online customer conversion.
- Deployed full-stack application using Render (backend) and Vercel (frontend).

### SkillSwap – Community Skill Barter Platform

*Tech: React.js, Node.js, Express.js, MongoDB, Socket.io, Redux, Cloudinary*

*github.com/Kabeer-developer/SkillSwap | skillswap-frontend-rho.vercel.app*

- Developed a platform where users exchange skills using a credit-based barter system.
- Implemented skill matching system, barter request workflow, and session scheduling.
- Built real-time chat functionality using Socket.io after barter acceptance.
- Designed review and rating system to build trust score between users.
- Created admin dashboard to monitor activities and ban/unban users.

### ShopSmart – Full Stack E-commerce Platform with Admin Dashboard

*Tech: React.js, Node.js, Express.js, MongoDB, JWT, Tailwind CSS*

*github.com/Kabeer-developer/ShopSmart | shopsmart-frontend-2xju.vercel.app*

- Built a complete e-commerce web application with user and admin functionality.
- Implemented authentication, product browsing, cart system, and order placement.
- Developed admin dashboard to manage users, products, orders, and revenue data.
- Designed responsive UI and protected routes using JWT authentication.

## EDUCATION

**B.Tech in Computer Science Engineering** — 2023 – 2027 (Pre-final Year)

CMR University, Bengaluru — **Current CGPA: 8.94**

## ADDITIONAL INFORMATION

- Interested in building real-world applications that help local communities and businesses
- Strong passion for full-stack web development and scalable system design
- Continuously learning modern web technologies and deployment practices
- Actively seeking full-stack developer internship opportunities
